Zeta Petroleum plc / Index: ASX / Epic: ZTA / Sector: Oil & Gas

**Zeta Petroleum plc ('Zeta')**  
**Jimbolia-100 well in Romania to be Tested**

Zeta Petroleum plc, the ASX listed Romanian focused oil and gas exploration and production company, is pleased to announce that logs acquired from the Jimbolia-100 appraisal well ('Jimbolia-100' or 'the Well') on the Jimbolia oil concession in Romania indicate the presence of hydrocarbons in multiple sands, which are consistent with the two previous discovery wells drilled on the concession: Jimbolia-1 which oil tested at 120 bbls/day and Jimbolia-6 which tested oil at 36 bbls/day. Accordingly, a decision has been made to flow test the Well, the cost of which will be funded 100% by the Operator, NIS Petrol SRL (a wholly owned subsidiary of NIS Gazprom Neft).

Jimbolia-100 reached its target depth of 2,590 metres on 21 February 2013. The Well was then logged with wireline tools and a 7 inch liner run and cemented into the bottom section of the hole. The Operator has advised that the current drilling rig will now be removed and replaced with a lighter workover rig for the testing phase. Although this will cause a delay to the start of testing whilst the rigs are changed over, it will allow a complete and extensive testing programme to be carried out. Further information regarding the changeover rig and the flow testing of the Well will be provided to the market as and when the Company is updated by the Operator.

The Jimbolia-100 well (39% Zeta; 51% NIS Petrol SRL; 10% Armax Gaz SA) is targeting the Jimbolia Veche oil discovery which has two hydrocarbon bearing intervals and a current Pmean contingent resource of 1.72MMbbls.
